Total	257	271

The Honorary Secretary's and Honorary Treasurer's Reports deal with the progress of the schools both at Deolali and Bombay. We publish therefore these first and shall then follow with the reports of the Head Mistress and of the two Head Masters.

### HONORARY SECRETARY'S REPORT.

For the first time in the history of the Bombay Education Society the Honorary Secretary has this year to write a report on the year's events of three schools for which we are now responsible, namely, one mixed day school in Byculla and two boarding schools at Deolali, one for boys and one for girls. All of these are now housed in new school buildings, the finest in the Presidency, all built within the last four years at a cost of nearly Rs. 22 lacs. In them nearly 600, the largest number ever on our rolls, are now being taught. Of these over 300 are fed and clothed as well. These are facts we can quote with a just pride and at this time when we are faced with rather serious financial difficulties let them speak of hope and encouragement. They speak of life. We are a real living Society. We have had difficulties in the past and have overcome them, and so it will be with these. Especially are we confident of this because we believe that the successful accomplishment of our aims up to the present has been due to the good Hand of God being upon us. He has a great purpose for us to fulfil towards the Anglo Indian and Domiciled Community. Therefore we look forward confidently to the cloud which at present hangs over us soon lifting and the sun shining forth again on schools free from debt and your Committee from anxiety. Looking back on the past year the first event to record is the opening of our new Boarding Schools at Deolali. This ceremony was performed on January 29th, our Founders Day, by our Patron H.E. The Governor of Bombay, Sir Leslie Wilson, G.C.I.E. There was a large gathering of over 300 (not including our scholars) who came from Deolali, Nasik, Bombay (by special train) and other parts. After H.E. had opened, with a silver key, the main door, the company assembled in the large Hall which will seat 1,000 children for meals, one of the finest Halls in the Country. There was first a short service, conducted by the Lord Bishop. This was followed by a

speech by Mr. R. A. Spence welcoming His Excellency and dwelling on the part imagination had played in the past history of our schools and the part it must play in the present and future. His Excellency in declaring the School open, prophesied a bright future for them and praised the wisdom of the removal from Byculla to this excellent situation. As a full report will appear in the Annual Report in which this will be inserted, there is no need to give here fuller details of the proceedings. But it was a memorable day. Clergy and Laity, Boy Scouts and Girl Guides, Refreshments and Bands all played their part. We express here what was expressed then namely our gratitude to Their Excellencies for their presence on that occasion and for the practical interest they have always shewn in our Society, since they came to Bombay.

But the cheerfulness of that day has not been the general atmosphere of our Deolali Schools all the time all the year. There have been difficulties and anxieties which only those who have been on the spot and experienced them, can adequately describe. It is, however, by facing and overcoming difficulties that heroes are made. We had an example of this at the beginning of this year in the removal of our boarding establishment from Byculla to Deolali. The small band of teachers and matrons who formed what might be called the advance party found the new schools a perfect chaos. The way they patiently, cheerfully, doggedly toiled for three weeks at hard manual labour, in order to make them passably fit for occupation, often doing simple coolie work and under conditions which men and women with less courage and less grit and love for our schools would have fled from by the first train, must be recorded here. My Committee would again express here for future record what they have already expressed by act namely our highest appreciation of their devotion and zeal for our interest. Heroes is by no means too high a title for them.

Your Committee, with the difficulty facing it of removing a debt of nearly Rs. 4 lacs on our Deolali School Buildings, being the cost incurred beyond the estimates, for which we had funds, are meeting it in the same spirit and hope to report soon a similar result. The Honorary Treasurer's Report will mainly deal with finances, especially at Deolali, so I will omit further reference to

our  
E.C.  
Bombay

finance except to say that if we are to be free of financial trouble we must have full schools. The Co-educational working of the day-school in Byculla was an experiment and an increase in scholars from 192 in January to 258 in November is excellent and shows clearly that our Day Schools have won the confidence and appreciation of Byculla parents.

The increase in the number of boarders at Deolali has been from 253 to 307\*; considering it is our first year this should not be discouraging. Parents want to know something about a new school before sending their children to it. What is said about what is going to be may not always be exactly what actually is. We admit that the schools during the first month or two after opening were not all that we had promised. This was not the Committee's fault. We had been promised they would be ready for occupation by January 15th. We prepared for our schools opening on that date. When it was found that the buildings would not be ready by that date it was too late to change all our plans and preparations. Considering the state of the buildings the removal should not have been till the June term. Since the first two months however there have been very few, if any, serious complaints. And to-day one has only to compare the looks of the children, their appetites, their weights, their cheerfulness and attitude to life generally with the memories of the same in Byculla and one's heart utters a silent prayer of thankfulness to God. It has been worth all the work and worry of your Committee and Staff a thousand times over.

Still speaking about the Deolali Schools another pleasing feature has been that during the year the teaching staff has remained practically unchanged. When one recalls the constant changes of teachers in Byculla in the old days in one year, with the resultant handicap to the scholars in their studies, this is gratifying. The reasons are obvious. In Byculla the accommodation provided was very bad. At Deolali each teacher has a pleasant separate bedroom and a sitting room, shared with another teacher, with verandah and delightful views and a large Common Room. In Byculla the climate was not healthy, in Deolali it is ideal. In

\* Although on 31st December 1925 there were only 271 children on the rolls 307 is the number for end of term.

Byculla for a walk there was the Victoria Gardens, in Deolali they have scores of miles in any direction. Only one has left (early in the year) with the result that practically every child has had the same teacher throughout the year.

Regarding teachers, the same story is to be told regarding our Byculla Staff where they are non-resident. There have been only two changes. This means a contented staff and this makes more than anything else for efficiency and good results. The increase in numbers of 66 scholars is one evidence of this and we look forward with confidence to the Cambridge results next year as another evidence.

A marked feature of the school life in Byculla has been the new enthusiasm for games among the scholars. Normally they are compulsory but to wander in the evening over our playing field, the largest in Bombay and the envy of every other school, and hear the happy voices and note the spirit of enjoyment that prevails the last word one would think of would be compulsory. The parents are grateful for the practical interest taken in the development of healthy and sound bodies for their children. There is no specially paid games-master or games-mistress. The teachers willingly take their turns in the task of supervision, this being only one mark of their enthusiasm for their schools; for games are played out of school hours. In the games competition among Bombay schools the boys have won the "Elton" Hockey Cup Competition and the girls those for "Net Ball" and "Skipping." It is a live progressive school and your Committee is very pleased with the year's results.

They would here express their appreciation of the work of the staff of all three schools. Teaching, Matrons and Office. It has been a difficult year for all. Three names however they would specially mention for the valuable services they have rendered during this critical year. The first is that of Mr. Evans. It is a wonder he is alive to-day. No one but himself can ever know what difficulties he has had to face. But his cheery determination, his dogged ability, his happy optimism and his love for the schools he has faithfully served for 15 years have enabled him to do for our Deolali Schools what probably no other schoolmaster

own  
E.C.  
bay

in India could have done or would have done. Fortunate have we been in having him as our Headmaster at this time.

The second name is that of Miss Burn. Hers again has been a trying task during the year she has been with us as Headmistress. But her tact and patience, practical wisdom, sympathy and personal influence have successfully brought the Girls' School through this year of difficulty and to a great extent of experiment. Her influence has left, we are sure, on our Girls' School a permanent mark for good at a time in its history when such influence was of vital importance. It is with sincere regret that your Committee record her resignation this term in order to be married; their good wishes with those of the staff and scholars go with her on her great adventure.

While speaking about the Girls' School we welcome among us Miss Burn's successor, Miss Hardy, daughter of the late Rev. T. B. Hardy, V.C., D.S.O., M.C. She has had a wide experience in running Girls' Schools in England and Jamaica and during the month she has been at Deolali had won the respect and confidence of the staff there. We hope she will be with us for many years.

The third name is that of Mr. Bigwood in whose charge has been placed the Day Schools in Byculla during their first year of a separate existence. For several years he was first Assistant Master under Mr. Evans. In him we have found a keen, capable, self-sacrificing Headmaster. All his interest is in his work and he is full of schemes for improving the school. The introduction of co-education was a change fraught with possibilities which might have brought regrets but under Mr. Bigwood's wise direction and control our fears we have found to have been unnecessary. Co-education has proved successful beyond all expectations. Parents have not disapproved of it as our large increase in numbers proves. We look forward in January to a still larger roll.

Your Managing Committee has remained unchanged throughout the year, though Mr. Spence and Dr. Cairns have been home part of the time. Though not so strenuous a year as 1924, it has been one with more anxiety and I question whether there is a Society in India with a Committee with so self-sacrificing and so living an

interest in their work as yours. We have again to thank our many friends for their continuous kindness and practical interest though we wish there were more. We badly need them.

We are specially grateful to the following for their generous subscriptions:—

W.I.T. Club, Rs. 10,000. Lloyd's Bank, Rs. 750. Lodge St. George, Rs. 250. Amateur Dramatic Society, Rs. 244. Ralli Bros., Rs. 200. H.E. Governor of Bombay, Rs. 150. Bennett, Coleman & Co. Rs. 150. Richardson and Cruddas, Rs. 150. J.A. Jones, Esq., Rs. 150. P.O. Halloran, Esq., Rs. 130. Forbes, Forbes Campbell & Co., Rs. 100. D.A. Fenton, Esq., Rs. 100. B.C. Rolandson, Esq., Rs. 100. Crawford Bayley & Co., Rs. 100. Chapter St. George, Rs. 100. B. E. S. & Tramways Co., Ltd., Rs. 100. T. R. Lawrence, Esq., Rs. 100. Sir John Bowen, Rs. 100. Capt. A. H. Mullen, Rs. 100.

We have Scouts at both Deolali and Byculla, and in Byculla Girl Guides and Cubs as well.

The Deolali Troop has been doing useful work under Mr. Baillie, and in Byculla Mrs. Moore and Miss Race have been working steadily with the Girl Guides. It is to the Rev. H. E. G. Tate however that our thanks are especially due for his unceasing work with the Cubs in Byculla. Out of six competitions open to all the Scouts and Cubs in Bombay we have won four. We thank all however who are helping in this valuable work.

This year both Deolali and Byculla Schools have issued their own School Magazines, which have been acclaimed by all as great successes.

In conclusion, in spite of what may seem a happy Report, your Committee are not satisfied. We are not performing *fully* one of the objects of the combined Societies namely the education and clothing and maintenance of the poor of our Diocese. The fact that we are not worse off financially is because for some time now we have only been able to admit to the Barnes' School those paying full fees, Rs. 50. The Schools are also for those who cannot pay full fees. Of these we have not so many as we would wish though we have eighty-six who are paying nothing at all and sixty who pay

own  
E.C.  
nberg

less than half the cost. But the proportion of free scholars should be greater. We advertised a few free vacancies for January next and of course have had applications far beyond the vacancies. I don't think the European Public of Bombay know the dire straits of hundreds of domiciled Europeans and Anglo-Indians to-day. We hope soon to make an appeal to them in which facts will be given and hope that it will receive the response which our work deserves

H. MARTINDALE.

## HONORARY TREASURERS' REPORT.

In presenting the accounts of the Society for the year 1925 we present a sorry tale, yet a very useful one. The accounts show a loss on the year's working of no less than Rs. 1,76,793-4-6 out of a total expenditure of Rs. 4,05,038-2-7.

In part this heavy loss is due to our being wiser than our Fathers and to the sins of our Fathers being visited—let us hope not on the heads of the children in our schools—on the heads of the Committee and subscribers.

We are wiser than our predecessors in that we have provided this year, for the first time in the 110 years of the Society's existence, for depreciation on buildings and plant and furniture. Rs. 43,906-4-6 represents the figures the auditors consider necessary to set aside and, if the figures in the Balance Sheet which show how this sum is arrived at are consulted, it will be evident that this sum will be about the annual figure of depreciation for many years to come.

The sins of our Fathers! Had our predecessors and our predecessors' predecessors only set aside from the birth of the Society a sinking fund of 1 per cent. on the cost of buildings, etc., well those who know the marvels of compound interest will know that our finances would be very different to-day. Our predecessors did not worry about scientific balance sheets and even had they been troubled by auditors they would have replied that they, like the Israelites, were unable to make bricks without straw, and that book entries which could not be converted into cash were mere eye wash. Now it is perfectly true that we cannot provide out of revenue Rs. 40,000 per annum for depreciation but it must be apparent to any one studying the balance sheet that a Society which has to run its own electric light plant, its own pumping plant, which has several miles of roads to maintain and which has to provide furniture for the board and education of some 600 children, let alone their pastors and masters must make an annual provision for repairs, otherwise the time will come when, for want of winding or for want of periodical oiling and cleaning, the works of the machine will stop.

own  
E. C.  
bang

The lesson of the Rs. 40,000 is that we must obtain more revenue and provide an annual sum, certainly of not less than Rs. 10,000 for repair investment if we are to stave off disaster.

Another little item we would draw attention to is "Interest Rs. 34,241-8-10." Admittedly this is not an usual charge on the running of the school as a school. It represents interest on capital borrowed to build the Barnes' School. Capital which had to be borrowed because the Society had been prevented by extraneous circumstances from selling its property in the "boom" years, and (since "slumps" follow "booms" as certainly as night follows day), because the Society still has its land on its hands.

A large part of the interest is due on a loan from Government of Rs. 7 lakhs secured upon our land, and here we should like to express our appreciation of Government coming to our assistance in the way they did. Without their help we could not have finished the work we set out to do.

We have however other land beyond that covered by the debt to Government, land which on a conservative estimate should yield over Rs. 3 lakhs —Debt to this amount was also incurred on the building of the school though in the case of our overdraft of Rs. 1,50,000 with the Imperial Bank of India we could not pledge land we had to pledge securities. If instead of borrowing we sold securities, our income with which we partly maintain our free scholars would disappear. We borrow—increasing our capital liability because we cannot pay interest out of revenue and because we still have hope that as the citizens of old Bombay came to the assistance of our predecessors so the citizens of present day Bombay will come to our assistance. We have not wasted money, we have spent in anticipation because it was necessary to do so, and that we spent wisely will be evident to any one who visits Deolali and looks at the children there. The children are the acid test.

There is another little item which is missing or rather which is represented by a figure so insignificant that its defence of being a little one cannot be accepted. We refer to the Government Educational Grant for the Byculla school.

Now you have to have been trained for many years as a clerk in the Inspector of European Schools Office to know how Government Grants are allotted, and when the rain is to fall on the just and unjust alike, and when only on the just, and when on the unjust; and if there are no unjust then on whom does the rain fall when the just do not receive it?

Broadly speaking, and leaving out Supplementary Grants and Durbar Grants and Special Grants, etc., etc., etc., Government make an education grant to schools of one-third of the schools sanctioned expenditure on education, and in theory this is most equitable as well as simple. The School knows where it is and knows that provided Government pays one-third of its expenses, then *if* school fees are based so as to bring in the remaining two-thirds the budget will be balanced. There is however a great deal in that *if* but of this we will write later.

There is one great flaw however in the Government system. The grant is made on the expenses of the past year and no provision is made for the case of a new school which has no "past" expenditure on which to fix a Government grant. This leads to the consideration of what is a new school? The Barnes School at Deolali? Old scholars and old staff (old in contrast to new) in new buildings; or Byculla, old pupils, old staff, and buildings which had been in use some three years? Those who juggle with our fate decided that Byculla was new and Deolali old so the Barnes School got the grants based on the expenditure of 1924 and Byculla got the bare cup-board. We have nothing to say against the allocation to the Barnes School but we think both schools should have been given a grant and the amounts adjusted afterwards on the expenditure of 1925.

What did Byculla get in 1925? Well our accounts unfortunately do not coincide with the Government year and the figures we publish do not show what Byculla received. Byculla received in February 1926 the sum of Rs. 4,995 being a grant based on the expenditure for the period 1st January 1925 to 31st March 1925. The amount of Rs. 1,500 which figures in our accounts represents some of the "etc." previously referred to.

our  
E.C.  
bay

The total education expenses in Byculla in 1924 were Rs. 1,28,000 so we might have looked for Rs. 42,000. The total expenses at Byculla in 1925 being Rs. 49,000 we should have been pleased to have paid back Rs. 26,000 (had we received Rs. 42,000!) if we had only been considered entitled to Rs. 16,000, but as things are we are not pleased at all and there is a sum of Rs. 10,000 required towards stopping that leak of Rs. 1,70,000. We shall make a representation to Government and, as we shall make it on behalf of children, we trust we shall not be compared with the Pelican (which also takes a living interest in its children) and cry in the wilderness!

There is another "leak" in our dam against bankruptcy and that is in subscriptions and donations. The leak is *not* due to the Turf Club. The Western India Turf Club has befriended us once again and out of a total subscription list of some Rs. 17,005 have contributed Rs. 10,000. We are indeed grateful to them and we shudder at the thought of 1926 with its taxation on the Club and the dire consequences to Charity due to the Turf Club's depleted funds. Has Government robbed Peter to pay Paul? We apologise to Government for using the word "robbed" in this connection but if Government is paying any one part of the money acquired may we be Paul? The falling off in subscriptions is due to several reasons, it is partly due to our not receiving in 1925 the benefit of the Commercial Gymkhana's activities (a sum of Rs. 1,117 came from this source in 1924 and we hope will come again in 1926). Then there was a War Padre (Padre Allsopp) in Ahmedabad who collected Rs. 400 in his District in 1924 for our schools. 1925 shows a blank in the connection between Churches and our schools yet the help our schools must be to the domiciled Community in every parish in the Bombay Diocese calls for better treatment—Church Congregations find it difficult to make their Church budgets balance, but a Sermon is a wonderful thing and, since the shorter it is the better is the temper of the listener, may we ask every Padre in the Diocese to preach a short sermon on behalf of the oldest Church Education Society in the Diocese and send us the resultant offertory and may we commend to their notice and to the notice of all Europeans the splendid Spirit of the Bhil Christians in Kherwara-Meywar, who in 1926 have sent our schools Rs. 13-2-4.

Like the Commercial Gymkhana the R.I.M. fails to make its annual appearance in our subscription list. May we remind those in charge of the R.I.M. dances that there is only one thing better than a dance got up in aid of the Bombay Education Society and that is two dances. The West of India Football Association seem to have forgotten us in 1925, we hope they will make it good in 1926.

There were 138 individual subscribers in 1924 as compared with 83 in 1925, and other explanations notwithstanding we fear that to this cause must be attributed in the main the falling off in the total of subscriptions.

This decrease in the number of subscribers is particularly to be regretted seeing that it took place in the first year of the Society's working two schools, one at Deolali and one at Byculla. We hope that the decrease is due to a lack of activity on our behalf, shameful as it is to make such a suggestion, rather than to a falling away of old supporters. We are going to make a vigorous campaign this year to recover lost ground and we ask all those who subscribed in 1924 but who did not do so in 1925 to—out with it—*treble* their 1924 subscription in 1926.

Coming now to Boarders' fees we have to record an increase of about Rs. 27,000 and this is satisfactory in a certain sense, but the main increase has come from those who joined us at Deolali and to whom we charged fees which we estimated would cover expenditure, namely Rs. 50 per mensem. Unfortunately, as will be seen later, this charge with our present numbers is not sufficient and seeing the large number of Foundation and semi-foundation scholars we have, and that numbers play a great deal in reducing costs, it will be necessary, if numbers do not increase, to increase the fee charged to full paying scholars but, since the number of non-paying scholars, when costs are divided amongst the total, undoubtedly reduce the cost per head, the increased fee will still be on the low side. In no other school in India giving the benefits the Barnes Schools gives is it possible to have a scholar fed, clothed and educated for as low a sum as Rs. 60 per mensem.

It is interesting to compare the cost of maintenance, as apart from education, at Deolali with the cost of maintenance in 1924

own  
E.C.  
nary

at Byculla though there are many exceptional items which render comparison difficult unless the expenditure is analysed item by item. Taking the totals however we see that in 1924 we spent in Byculla on an average number of 287 children Rs. 70,670 whilst in Deolali on an average of 307 children we spent Rs. 1,58,500.

Such a big increase demands analysis !!

*House Keeping and Hospital Staff.*—The increase here was from roughly Rs. 17,300 to Rs. 24,300. At Byculla we had practically but two Houses, one for Boys, one for Girls. At Deolali we had 6 houses of 50 children each. At Byculla we had nothing to pay for the services of a Doctor, the services of the 1st Presidency District Surgeon being at our disposal in return for office accommodation. At Byculla we had an apology for a school infirmary, at Deolali we have a first class one.

*Messing Charges.*—In Byculla in 1924 we spent Rs. 41,500 and recovered from the Resident Staff for Board and Lodging (allowed for in their salaries) just under Rs. 8,000. In Deolali we spent Rs. 65,700 and recovered Rs. 18,200. A net figure of Rs. 47,500 against the net figure of Rs. 33,500. This is accounted for by increase in the number of children and staff and undoubtedly by the fact that the children are better fed. Milk is one great item in the change. Good milk and plenty of milk is given to every child. It stands to reason that if you provide a climate which instead of enervating a growing child makes that child brisk and vigorous you must feed the—no, not brute—child. There is no waste, there is no pampering but that the children are well fed is an undoubted fact palpable to all who see them.

A heavy extra item of expenditure included under the head of Messing is expenditure on coal. In addition to the necessary cooking there has to be provided hot water for the children's (and staff) baths. The system is made as economical as possible. In the different Houses we provide cold water shower baths. Each boy has to have a shower morning and evening (he can have as many more as water and time will permit him), but in addition each child has a Hot "Soaking" bath twice a week. Cleanliness is next to Godliness and both are necessary in a school in the East.

Another item which, whilst it does not affect the result, makes the messing charges heavier than they might otherwise appear is the fact that the amount charged for messing to the staff in general does not cover the cost. As however any increase in the amount charged would have to be balanced by an increase in pay this is to a certain extent academical to the discussion.

*Clothing Charges.*—In Byculla Rs. 4,000. In Deolali Rs. 28,500. No comparison is however possible here. The clothes suitable for Byculla were used up, nothing was bought in 1924 that was not for Deolali and an initial expenditure of Rs. 24,000 was incurred to fit out the new school. Rs. 28,500 is an exceptional expenditure and though boys' garments are not famous for their lasting capacity the school is well stocked with clothing and 1926 will show a very big reduction indeed. In 1923 the clothing bill in Byculla was Rs. 12,716-7-3 and allowing for the fact of extra bedding being necessary and generally stouter clothing it is not expected that the cost of clothing per child will in the future greatly exceed that of 1923.

*Lighting and Power.*—At Byculla we, as a charitable institution, paid practically nothing for water, and lighting charges were reduced to the low figure of Rs. 2,000. At Deolali we have to provide our own water, we have to filter that water and pump it up to the top of all the school buildings which stand on a hill. At Deolali we have to provide our own electric light and so we get an item for Lighting and Power of Rs. 9,000.

*Office and School Books and Stationery.*—For the new school at Deolali everything new had to be provided. The old books were wanted at Byculla. In Byculla in 1924 we spent Rs. 4,000. In Byculla in 1925 we spent Rs. 2,000. At Deolali in 1925 we had to spend Rs. 6,700.

*Repairs to Furniture.*—We used up all the old Boarding School furniture and all the old school desks we could but get move to Deolali and the necessary furbishing up makes the total for the two schools Rs. 5,000 (this includes repairs to Pianos) as against Rs. 600.

*Freight Charges.*—This is a new item consequent on the move to Deolali and accounts for Rs. 4,500.

This analysis is wearying work however and we have not yet touched on education. We will dwell briefly on this.

own  
E.C.  
bag

		Average number of Children.	Cost of education. Rs.
Byculla, 1924	..	287	1,18,250
„ 1925	..	257	49,700
Deolali, 1926	..	307	1,17,300

No comparison can be made between Byculla in 1924 and Byculla in 1925 as Byculla in 1924 was mainly a Boarding School, but the comparison between Byculla in 1924 and Deolali in 1925 is quite satisfactory.

There is one feature however which is most unsatisfactory and which parents in this Presidency, as well as Government, will have to tackle.

The cost of education at the Byculla School in 1925—a school containing 257 children so not a small one—a school which has not a single boarder and in which no master is paid for boarding school duties—in this school the cost of education per head was Rs. 193— or Rs. 16—per mensem. The fees paid by parents came to Rs. 19,927 or Rs. 6½ per head per mensem. If Government had paid us in 1925—and we are confident that we shall receive our due this year—one-third of our expenses plus the etc., etc., etc., we should have received more than this.

Why should Government pay the same as the parent? Why should the parent pay less for the education of his child in the humanities or three Rs. than he does for his music lessons? The reason is because of the proselytizing instinct of some and the fear of it in others. If a school in Bombay were to dare to put its fees on a proper basis that school would be emptied of pupils who would go to schools which had low fees because they paid practically nothing to their teaching staff (these belong to religious bodies) and were anxious to pluck brands from the burning. Non-Roman Catholic Schools will never be able to charge fair fees until they can induce Roman Catholic Schools to come into line with them.

Another point is that education costs in Bombay could be reduced and better education given in the higher standards if

there were amalgamation of classes in the higher standards of two or three schools. A school with four children in the ninth or six in the eighth standard cannot be economically run. There should be one common class for each senior standard, in say Science, Latin, Mathematics, for the Anglo-Scottish Orphanage, St. Peters and B. E. S. Schools. It would mean a little trouble to teacher and pupil, but the one is used to that and the other would benefit by it. We have put the idea crudely, but it is necessary that it should receive the attention both of Government and of our School Governing Bodies.

We hope this review of the financial side of two big schools in this Presidency will have interested readers. We want it to because we want to appeal to them. We want money badly. We want money not to relieve the parent, who can pay, of his duty to pay but we want money to carry on the work for which the Society was founded—namely the maintenance and education and the upbringing in the Christian Religion, according to the faith and doctrine of the Church of England, of children of European and Anglo-Indian parentage who are either orphans or whose parents are genuinely unable to give them that upbringing which will make them good and decent citizens and creditable to the British race.

In 1925 we had in our schools no less than 86 destitute children who paid us no fees at all. We had 21 children who paid us Rs. 10 per mensem, 15 who paid Rs. 15 per mensem, 12 who paid Rs. 20 per mensem. The people who paid these fees could pay no more. It is on their behalf we ask for liberal support. If any one questions whether the money will be well spent, we answer:—Go to Deolali and see. Your answer is there in the children. They are worth spending money on and they repay you.

### BARNES SCHOOLS.

Owing to these schools being in quarantine there was no distribution of prizes at the end of 1925. The prizes were given away quietly in 1926 and the Reports of the Head Master and Head Mistress are published now for the first time. We give the

sum  
E.C.  
Barnes

preference, as in duty bound, to the Head Mistress—practically her last work in the school was the writing of her report.

### REPORT OF THE HEAD MISTRESS.

Our academic achievements have not been very great up to the present, owing to a bad start, but the general improvement in health and general order in the school augurs well for next year.

At the beginning of the year Miss Hoyes was married and left unexpectedly and Miss Vyse was away on sick leave for several weeks, so we had an unfortunate first term for which it has been hard to compensate; since May, however, with the arrival of Miss Coleman, we have had a complete staff and continuous teaching, so we hope that the effects of the first term will not be too apparent in our annual examinations this month. We have had several other new teachers this year: Miss Cazalet and Miss Brereton from St. Mary's Training College, Poona; Miss Burrett from Woodstock, Mussoorie; Miss Brown as head of the Kindergarten and Miss Roper as Music Mistress. Miss Alcock, who came out last January, has filled the arduous post of Commercial teacher and Secretary.

There have been a good many changes on the domestic side, but Sister Margaret and Sister Mary remain the pillars of this part of the organisation. Our present staff consists of Mrs. Swete in No. 4 House and Mrs. Hankins and Mrs. Jackson in the Preparatory House; Mrs. Jackson also relieves the hospital matron. The hospital has suffered more than any other part of the school from discontinuity of staff, having had four different matrons in charge of it. We now have Mrs. Paling, who came at the end of August.

A very mild form of small-pox necessitated the isolation of the Preparatory House and some of the senior girls and staff for three weeks. It was rather a trying time for them, but it is interesting to know that we can do this in cases of infectious disease without complete disorganisation of school work; the epidemic is now at an end.

The numbers on the school roll have gone up from 134 in February to 157 in October; this includes 12 day scholars and one boy from the boys' school; the rest are boarders on the girls' side.

During the first term the girls were able to play hockey and net-ball until the hot weather cracked the ground so much that it became dangerous. Hockey was an innovation and was very popular so it was unfortunate that it had to be abandoned till after the rains when the new ground had been levelled. We now have hockey, net-ball and tennis available for the girls, and the use of the swimming pool on three afternoons a week. This regular exercise under better conditions than were ever experienced in Byculla will do much for the school in the future, and we believe that its effects are already being felt. The girls took part as usual in the Annual Sports, the high jump being a new event in their programme.

Gardening is a new hobby which has been spurred on by the introduction of Botany as school subject. We hope gradually to make a collection of flowers which are to be found round the school; these will be pressed and there will be a corresponding collection of water colour drawings with botanical diagrams. This is a project which it will take many years to fulfil, but the nucleus of the collection exists and will be supplemented as time goes on. We owe much to the Rev. R. D. Acland, without whose help we should have done very little as we have been handicapped by the inaccessibility of botanical reference books; the Flora of Bombay Presidency is beyond our means at present and Nairne's Flowering Plants of Western India being out of print, is not easy to come by.

The new Head Mistress, Miss Hardy, arrived in Bombay on the 23rd of October. In a school where English is such a very weak subject, we are lucky to have the prospect of being directed by someone who has specialised in the teaching of it, and has also had experience in a school of the same type as this in Jamaica. Under her guidance and under more settled conditions than have prevailed this year we have great hopes for the success of the school in 1926 and the future.

## HEAD MASTER'S REPORT, BARNES SCHOOL.

The School has now completed its first year in Deolali, and in the light of the experience gained in 1925 the work of 1926 can be planned. For over a hundred years it was carried on in Bombay and during that time it evolved rules and habits suitable to its premises and surroundings. These it brought with it to Deolali, but hardly a week has passed without one or other having to be modified or abandoned. Gradually an organisation has been built up suitable to the new conditions of Deolali. Of necessity this year has been somewhat experimental but at its close I feel that much of what has been done is sound and that 1926 will be a great improvement on 1925.

The outstanding effect of the move on the boys has been a diminution in the number of hospital cases, and an increase in physical and mental activity. In Byculla there was plenty of life in hockey and cricket, but outside these it was difficult to interest boys in anything requiring sustained attention. Here, there is much that stimulates. The school site on the top of a plateau, open to the mountain breezes and looking over the valley of the Durna to the distant ghats, is in itself a tonic. We have over 200 acres of land, and some boys have turned to gardening and poultry keeping as hobbies. Natural History, too, claims several, and the Natural History prizes awarded by Sir Reginald Spence have done much to sustain interest. The Natural History boy should turn to the Government Forests Department after leaving School.

The four houses into which the School is divided have small reading and games rooms which the boys have fitted up and keep in order. Much more general reading is done than in Byculla, but India is not a country where grown-ups or children read much, and the reading habit has to be fostered.

It was feared, especially by Old Boys of the Schools in Byculla, that the lack of matches with other schools might lower the standard of cricket and hockey, but this first year has shown that that fear was groundless. House matches have improved the standard

of the lower school, and games with military teams from Deolali have supplied all the practice necessary for the first team. In the autumn we were very pleased to receive visits from our Old Boys cricket team and from the Cathedral School. It is hoped that this feature of school life will develop. Our boxing and swimming house tournaments were well contested, and brought out good talent. In future the School Sports will be held during the Diwali holidays to enable old boys and other Bombay visitors to be present. Founders' Day, the 29th January, will still be kept as a School holiday.

In School work we have done better than I expected in view of the fact that for the first three months the builders were at work in the houses where lessons were taken. The nucleus of the School came up from Byculla, but there were big additions of new scholars, and many of these were backward. The terminal examinations show that they have made good progress. The School has been made a centre for the Cambridge Local examinations, the Bombay School of Art drawing examinations and the Trinity College in Practical Music. I would call attention to the report of the Inspector of European Schools which appears on page 43 of this Annual Report.

It is the fashion now-a-days to bewail the increasing difficulties in the life of the domiciled community, but there are few countries where a reliable, well-educated boy has so many opportunities for advancement as in India. It is for the apathetic and badly educated that life is becoming increasingly difficult. And it must be remembered that the schoolmaster cannot do much for the boy who comes to school unable to read and write when he is ten years old, and who frequently returns late after the holidays. It is also the fashion to belittle the value of a course in an Indian university. Indian colleges are not nearly as good as their Principals would like them to be, but the youth who takes a good degree in an Indian university has excellent government and commercial posts open to him. Both parents and boys must take longer views of life, and both must aim higher. Parents, mothers especially, can do much during the holidays by quiet talks with their sons to instill wholesome ideas and to awaken ambition in the minds of growing boys. The boy must learn to do without many things he would

sun  
E.C.  
bay

like to have during his apprenticeship or college days. And to learn to do cheerfully without the things he cannot afford is not the least valuable of life's lessons which a young man should take to heart during his college course. This lesson, if well learnt, keeps men out of debt.

Under Mr. Barnet the Telegraph Class is doing good work. Twelve boys who finished their second year course in December are now at work in Government telegraph offices in Bombay and Poona. When he passes his qualifying examination the telegraph class boy does not have to look for work: the Posts and Telegraph department which has given him his technical training takes him at once. A boy cannot be admitted into this class until he has passed out of Standard VII and is sixteen years of age. Ours is the only class for European boys in this Presidency and a boy cannot join the telegraph department without doing a two years' course in this class.

The B. E. S. Schools are very closely connected with the G. I. P. Railway. In 1926 there were no less than 160 children in the Schools (98 at Deolali, 62 at Byculla) whose fathers were or had been employed on the Railway; of these children 49 were orphans. Our schools have a claim therefore on the interest of every European, and Anglo-Indian employee in the Railway (*Verb. Sap*).

The School laboratory has been fitted up, and now standards VI, VII, VIII and IX do regular practical and theoretical chemistry and physics under Mr. Anthony. We hope to have a carpentry class working in 1927. Examination results and prize winners appear on page 47-53.

This year has for many reasons been a difficult one, and I gratefully record my thanks to masters and matrons who carried on their duties under very trying circumstances, especially during the early part of the year. I am more than usually indebted to Sister Margaret who manages our catering, which is no light task. She has to arrange for the feeding of about 350 people, and her supervision work is endless. In January 1925 a school exercise book and my hip pocket constituted our office and safe. The

enormous amount of work done by Miss Alcock and Mr. Fernandes to get a proper office in order since then is known to no one in the Bombay Education Society but myself, and I very much appreciate their work.

The good health of the School throughout the year is shown by the small number of infirmity cases, but in October we had a mild outbreak of small-pox, which caused considerable anxiety and trouble and lasted until December. Fortunately none of the cases were serious and there were no deaths. The number of cases was 10. Dr. Bartley and the Infirmary staff managed admirably. Everybody on the staff, the pupils, the servants and their families were re-vaccinated.

A feature of the school which is being developed rapidly by the Managers is the Vegetable Garden and Farm. During the latter part of the year the garden gave 1,500 lbs. of vegetables per month and it is anticipated that in 1926 much more will be done to make us self-supporting in this respect.

In concluding this report I should like to place on record the wonderful assistance which the Managers have given me in dealing with the numerous problems that have arisen. They are very busy Bombay business men but when I have been in difficulties, and that has been very often, they have sacrificed their week end leisure to come to Deolali to advise and assist. Mr. J. A. Jones, our Chairman, has done an enormous amount of work in connection with the Power House, the maintenance of buildings and the garden and farm, and Dr. Jas. Cairns has made the purity of our water supply and our sanitation his especial care. Sir Reginald Spence and Mr. Jones when they arrive bring bundles of magazines, books and newspapers for the children and staff. The community which this school serves is fortunate in that such public spirited men find their pleasure in devising means for the improvement of the education and health of its youth.

### B. E. S. HIGH SCHOOL AT BYCULLA.

We were able to hold a prize giving at Byculla and in the account of this will be found the Head Master's Report followed by the speech made by Sir Maurice Hayward. Sir Maurice and Lady Hayward have always taken a keen interest in the welfare of the youth of the European and Anglo-Indian Communities and they will be greatly missed from amongst us. Sir Maurice was a keen lover of games and it is pleasant to remember that when he left Bombay on his retirement from the post of Senior Member of Council he gave, what must have been dear friends of his, his cricketing and tennis kit and Indian Clubs for the use of boys at the Barnes School.

#### DISTRIBUTION OF PRIZES.

The prize distribution ceremony of the Bombay Education Society's High School took place at Byculla on Wednesday afternoon, when Sir Maurice Hayward presided and Lady Hayward gave away the prizes. The hall of the School was filled to its utmost capacity with scholars and their parents, who showed keen interest in the proceedings and frequently indicated their appreciation of the observations of the Chairman of the Committee, the headmaster of the School and of Sir Maurice. The first of these surveyed the Society's activities during the past year including the removal of the boarding school to Deolali, while the headmaster reviewed the work done by the Byculla School during the last year on co-educational lines. Sir Maurice expressed his satisfaction with the progress effected during the year under report and assured his hearers of his sympathies towards the activities of the Society.

Mr. J. A. Jones, the Chairman of the Committee of the Society read the report on behalf of the Honorary Secretary. This is given on pages 8-14 :—

Mr. Bigwood, the Head Master, then gave his report for the year 1925. He said :—

SIR MAURICE AND LADY HAYWARD, LADIES AND GENTLEMEN—

In submitting my report for the year, I wish to state that this school is practically a new school, run on co-educational lines with

reputation and traditions to make. Whether or not co-education has been a success and reputation and traditions are being built up I shall leave you to judge from the following account of the school's progress in 1925.

In January the number on the roll was 177. It is now 248, an increase of over 33½ per cent.

The staff is adequate and qualified. Four are graduates with teaching experience. The remainder are trained or experienced teachers, most of whom have come to us from the old boys' school. At the beginning of the year the new members of the staff were Messrs Muller, Mayers, and Akki and Misses Mitchell, Nancarrow, Hamilton and Davar. Mr. Muller left us to join the B.B. & C.I. Ry. in March, while a month later Miss Mitchell resigned on account of ill-health. Her place has been filled by Miss Kerr. Misses Sharling and D'Souza leave us this month after years of faithful service for the Society. I take the opportunity here to thank the staff for their loyal co-operation during this critical period of the life of the school. It gives me pleasure to record that the members of the staff have always helped me when occasion arose. In this connexion I would like to mention Miss Kerr and Mr. Mayers whose keenness and untiring efforts have done so much for the games of the school, and Mrs. Colhoun for her efficient management of the library. It is through her efforts that we are gradually building up a new library.

The Inspector of European Schools paid his annual visit in July and expressed his satisfaction with the work and progress of the school. "The curriculum", he says, "is on modern lines." The standard of work set in previous years by the old schools has been maintained, but I intend to raise it higher next year so that there will be no comparison between this and other schools. Science is being taught from Standard V and Latin from Standard III. Geometry and Algebra will begin from Standard IV and Higher Mathematics will form part of the syllabus of the High School standards next year. We have entered six for the Senior, twelve for the Junior, and nine for the Preliminary Cambridge Examinations. Two are appearing for the Matriculation Examination in March, 1926. It is hoped that with the raising of the standard

own  
E.C.  
Hayward

of work we shall be able to send in more candidates for these examinations in the future.

The Kindergarten Department has also had a satisfactory report from the Inspector of Schools. He says: "The K.G. Dept. is run on up-to-date lines,—music, games, handwork are all made use of." I am pleased to say that not only have we had more than the maximum number of pupils in this department but that the standard of work has improved and has not suffered in any way through the largeness of the numbers.

As a new school we have no Cambridge results to report. In January four candidates were sent up by Miss Myers for the Trinity College of Music Practical Examinations. All four passed and received honours marks. Three were sent up for the examination in theory and all passed, Muriel Rose gaining 98 per cent. In the Drawing Examinations we had two passes, one in the Intermediate and the other in the Elementary Grade.

Games, as an important part of school life, have been carefully fostered. Ninety per cent. of the girls and fifty per cent. of the boys had not played organised games before, but now every girl and boy from Standard II has to play under supervision. The results gained by careful coaching have been quite satisfactory. The girls have entered for every important tournament except tennis, for which they have no court, and though they were beaten in Badminton, they succeeded in winning the Spence Cup for Net Ball, the McKenzie Cup for Skipping, and the Tata Cup for Senior Drill. The boys have done as well. They won the Elton Hockey Cup and succeeded in reaching the semi-finals of the Giles Shield Cricket Tournament. The house system is in force for both sexes. There are seven houses, four of boys and three of girls. The inter-house tournaments have been keenly contested and, what is more important, the children are learning the value of team work. Another pleasing feature on the girls side is that all the houses determined to get their own costumes and for that purpose arranged concerts and sports. The champion houses this year are Nightingale House (girls) and Barnes House (boys). The Boxing Tournament held on the 19th September and the Annual Athletic Sports on the 7th November were great successes and showed that we possess very

promising material in both branches of sport. Mr. Mayers worked very hard to make the former a success, while Mr. Brown spared neither time nor trouble for the latter. I thank the gentlemen who officiated at these events and who gave prizes. Early in the year the members of the Managing Committee presented cups for the house tournaments while Messrs. Edwards, Ellis and Marshall gave cups and medals for the boxing tournament. I also thank the parents for their generous subscriptions towards the Sports Fund. I cannot close this portion of my report without mentioning that most of the Old Boys who left school within the last six years are taking a great interest in the new school especially where games are concerned.

In addition to games, physical drill forms part of the curriculum and with gymnastics for boys the children under Miss Davar and Mr. Martin are given every opportunity for building up strong and healthy bodies.

Scouting, cubbing, and guiding also have their places in the scheme of things. The 3rd Bombay Troop of Scouts and 3rd Wolf Cub Pack have their headquarters here. Eighty per cent. are boys from this school. Early in the year they sustained a sad loss in the death of their Scoutmaster, Mr. H. Down, with whose good work everyone in Byculla is familiar, but under the Rev. H. E. G. Tate they are forging ahead and may well claim to be the leading troop in Bombay. This year the scouts won the Inter-Troop Boxing Tournament and the Wedgewood Cup while the cubs won the Sports Cup and the Inter-Pack Cup for all round efficiency. The 10th Girl Guide Company was formed in March by Mrs. Moore and continues to flourish under her wise guidance. She has now a capable assistant in Miss Race.

We have also tried not to neglect the social side of school life. In addition to social meetings of the senior children, a school concert was held on the 21st August. We have also attempted a school magazine in a small way. Those interested will find in the number published this month the full details of our many activities.

I conclude with an appeal to parents to give their children every chance to finish their education. Let them finish school in

own  
E.C.  
by

Standard IX and obtain either the Senior Cambridge or Matriculation certificate. If possible let them go through College. Competition is too keen nowadays for parents to neglect giving their children every chance of fighting their way in the world successfully. And to those whose children have sat for the final examination and intend to enter College if they pass, I would suggest that these children should not be withdrawn from school in December. At least five months elapse before they can enter College and there is every possibility that in those five months much that is essential for College work will be forgotten. I am prepared to give them a special course which will not only keep them up to the mark but will enable them to go through their college course for the first year successfully.

SIR MAURICE HAYWARD'S REPLY.

Sir Maurice then rose amidst loud applause and delivered his address. He thanked the Society for affording him and Lady Hayward an opportunity to attend its prize-giving at the headquarters of the schools for the last time before they left India. It was quite true, he said, that momentous changes had taken place during the past year, but it was equally obvious from the reports read to them that the changes were charged with great benefits both to the Byculla schools and to the Barnes school which had been transferred to Deolali. He was extremely interested to hear that the experiment of co-education of boys and girls had received such support and proved so great a success in the first year of the school. He felt pleased with the rise in numbers—a promising factor in favour of the Byculla school which was reinforced by the encouraging remarks of the Inspector. It was also reassuring to note that due attention was being paid to the physical side of education, a side which was particularly important in this country, and more particularly in Bombay. He congratulated the scholars on their achievements in the field of sports and expressed the hope that the girls' request for a tennis court would soon be met. After noticing with satisfaction the school's efforts in regard to boy scout and girl guide organisations, Sir Maurice said he was glad that under the new arrangements it had been possible to make more comfortable arrangements for the staff, with the result that

they had been able to maintain practically the same staff throughout the school year. He congratulated the headmaster, Mr. Bigwood, and his staff on the result of the first year of the Byculla school after the separation of the boarding house.

Lady Hayward then gave away the prizes to the successful pupils amidst ringing cheers from young and old. A feature of the prizes was a string of boxing boy-champions of all conceivable weights.

The proposal of a vote of thanks and the call for three cheers for Sir Maurice and Lady Hayward produced a deafening response. The function terminated with an interesting programme of songs, recitations and drill, which were highly appreciated by one and all.

## THE OPENING OF THE BARNES SCHOOLS.

The Barnes Schools, Deolali, stand out prominently against the sky line on some rising ground alongside the G. I. P. Railway line. An imposing pile of buildings they are a magnificent monument to over a century's work on behalf of education for the European and Anglo-Indian communities of Bombay. It will be recalled that on January 29, 1815, Archdeacon Barnes made an appeal as a result of which the Bombay Education Society was founded, and in 1825 the foundation stone of the Byculla Schools

It was nearly a century later when, as a result of a proposal made by Lord Willingdon, the B. E. S. amalgamated with Anglo-British Institutions and the germ of the idea of the Deolali was sown. It was eventually agreed that the site of the land should be sold, a new day school built on the side of the Byculla Schools, arrangements made to retain the playground and the remainder of the property should be sold and new boarding schools erected in the neighbourhood of Deolali.

A site of about 200 acres was acquired within three miles of Deolali and here there has gradually sprung up in the course of the last few years the biggest school in Western India, and such has been the imagination and foresight of the promoters of the scheme that there is room for almost unlimited expansion. The buildings at present in contemplation or already erected are capable of accommodating 500 students, but with an eye to the future, the great hall has been made large enough to accommodate 1,000. When completed the buildings will be almost a miniature town. There are already four houses with class-rooms attached, the gigantic school hall with administrative offices underneath, the headmaster's and the chaplain's bungalows, and quarters for the engineer and various members of the staff. A fifth house has still to be built, more accommodation for the staff, more class-rooms on either side of the school hall, a gymnasium and farm buildings. It is proposed to have a large farm with all kinds of live stock and two vegetable gardens, one of which will be provided from the sewage plant. There will also be a natural swimming bath for the students.

When the school has 450 students, it should be in a financially sound position inasmuch as its income should balance its expenditure, but for future development and progress, the Governing body are anxious for the generous support of the public. Much has already been written on the advantages offered by the new school from the point of view of recreation for the scholars, and one has only to see the situation and the well laid out grounds to appreciate the truth of this. In this respect it might be added that girls as well as boys will be fully catered for, and the playing grounds for the girls are situated on the west side of the buildings.

The opening of these schools by the Governor of Bombay on Thursday opened up an era of limitless possibilities, and it is a phase of the ever-increasing demand for education that is making itself felt not only in India but in every country of the world. If the tendency of modern events means anything, then it is certain that the school will be used to the fullest possible extent.

The opening took place under the happiest auspices. A special train from Bombay had brought a large number of prominent people to Deolali for the occasion, among those present being the Bishop of Bombay and Mrs. Palmer, Sir Maurice and Lady Hayward, Maj.-Genl. H. A. V. Cummins, C.B., Mr. L. S. Hudson, M.L.C., Mr. H. T. Gorrie, Mr. Cartland, Mr. R. H. Delves, the Archdeacon of Bombay, Dr. Cairns, Mr. N. W. Faith, Mr. H. Royal, Mr. J. Addyman, M.L.C., Mr. F. W. Peth, Mr. R. A. Spence, the Rev. H. Martindale and the Revs. Ashley Brown and C. Mason, all of whom are Governors of the schools. Mr. Batley and Mr. King, the architects were present, as well as Mr. T. M. Evans, the headmaster, Miss Burn, the head mistress, and members of the staff, Messrs. McNeill, Sherwood and Gillet, of Messrs. Mackenzie the contractors, and Colonel and Mrs. Whitaker. Among others were Mr. N. M. Wadia, C.I.E., Mr. Fraser, Deaconess Phoebe and Mr. R. K. A. Cama.

It was nearly dusk when the Governor's car came into the school grounds and the band of the Royal Scots played the first few bars of the National Anthem. Sir Leslie Wilson, who was greeted by Mr. R. A. Spence, met the other members of the Governing Body and then inspected the guard of honour of Boy Scouts.

Lady Wilson inspected a similar guard of Girl Guides and she was presented with a handsome bouquet. The Governor was then presented with a silver key with which he unlocked the centre door of the main hall and entered followed by the rest of the guests, who numbered about 300. When all had taken their places the Bishop conducted a short impressive service, concluding with the hymn "As with gladness men of old." He then pronounced the blessing.

Mr. R. A. Spence, who is one of the Joint Hon. Treasurers of the Schools read an address to His Excellency from which the following are extracts:—

#### IMAGINATION AND REALITY.

Imagination and day-dreaming play a greater part in the history of mankind than is often realised. Let us imagine ourselves back in Bombay in the Church of St. Thomas on the 29th of January 1815, listening to the sermon preached by the founder of this Society—him whose name we commemorate by these Schools—Archdeacon Barnes. The Archdeacon had imagination and he saw what would happen if provision were not made for the children of the European and Anglo-Indian community of Bombay and generations have blessed him for it. Imagination however high it may soar, however, generally falls short of reality, and those who built our old home in Byculla in 1825 and imagined that the site would never be incommoded by other buildings had not the imagination which would have enabled them to foretell realities.

Imagination sees our School Chapel built as a thank-offering by old students of the Bombay Education Society, crowning our school site. Imagination sees our class rooms finished and the temporary ones available for the recreation of boys and girls. Imagination sees the finest technical school in India established on this site and boys issuing from here trained to make good apprentices in the profession of engineering in all its branches. Perhaps the G. I. P. Ry. may help to turn imagination here into reality. Will imagination be right in picturing this school ten years hence as a school containing 600 boys and 400 girls? The work of the school and the work outside of the domicile community will deter-

mine the reality of this. If these schools turn out good men and women—if the community we are working for realises that it is by their own exertions—by their willingness to take responsibility, by their ability to rely on themselves that they will save themselves, then imagination will be turned into reality and the Governors of this Society will have a difficulty in deciding whom to accept and whom to refuse.

Your Excellency—it needs no imagination to realise that this is a proud day for all those who have worked and striven for the erection of these schools who all rejoice at seeing you and Lady Wilson here to-day. I will not speak of the work done by the governing body—they, proud people, say "circumspice." I should like to refer to the ever present hard work put in by our Honorary Secretary, the Rev. H. Martindale and his "locum tenens" the Rev. A. J. Seaman. Day by day, week in week out they have borne, smilingly, willingly, and well, an Honorary burden which would have overwhelmed many a man. Then our Architect—Claude Batley. Sir, I think he is remarkable perhaps even more than for his work done here and in other parts of India, for his equanimity of temperament and his persistency in coming up buoyant whatever troubles swept over him.

I now come to one to whom we all Architect and Governing Body—owe a deep debt of gratitude—Bernard Gillett—to him and to his firm. The firm has done the work on very favourable terms to the Society and we thank Messrs. McKenzie, Ltd., for this and for letting us have Mr. B. G. Gillett. I have not referred to the man behind the scenes—the man with the pin "coaxin" the aisy ones, helping the lazy ones on with the stick," our Headmaster T. M. Evans. His reward is the school. Let the school give it to him and to our Headmistress, Miss Burn, whom we welcome among us.

As Treasurer I have said nothing about our finances. I cannot. I have not the imagination to picture Sir Paul Chater coming to my help or Rockefeller handing me a million sterling—I can only pray that many will remember the great financial needs of these schools and I have a firm belief that many will remember and that many will help.

His Excellency the Governor in declaring the Schools open said :—

Mr. Spence, Ladies and Gentlemen,—The ceremony which you have invited me to perform to-day marks a very important stage in the development of the education of Europeans and Anglo-Indians in this Presidency. It is just a hundred years ago since the foundation stone of the Byculla schools was laid, and the movement then, as now, was from a crowded centre to the freer air of the country. At that time it was thought that the new schools at Byculla had plenty of room and were never likely to be crowded out. Prophecy, I admit, is always dangerous, but I must say that even 100 years from now I cannot believe that you will be crowded out of your present site. For one thing, you have taken the precaution to purchase an area of land adequate to your needs for as far ahead as can be at present foreseen, and I congratulate you on this very wise precaution. There are already signs of rapid expansion here, and when you have an electric railway running up from Bombay, a possibility no longer beyond the bounds of practical politics, you may look forward to a still more rapid increase in the population in and around Deolali. As a site for a school of this kind I cannot imagine it possible to find a more suitable locality within reasonably easy reach of Bombay, and I congratulate the B. E. S. on what I consider to be a very wise choice.

I also wish to express to the Society my warm approval of the fact that their schools are not managed in any narrow sectarian spirit, but that, although nearly all the funds of the Society have been contributed by Europeans and Anglo-Indians, they welcome as Day-scholars the attendance of Parsi and Hindu boys from Deolali and Nasik. This, I think, is the proper spirit in which to manage an educational institution. If the pupils are to grow up, as I am sure we all wish them to do, with wide sympathies for other classes and creeds, they must benefit very greatly by having before them an example of broad-minded tolerance in the management of the school itself, and I trust that advantage will be taken by the parents of all races in Deolali and the neighbourhood to send their children to this school as Day-scholars.

It is, however, chiefly for the benefit of the European and Anglo-Indian community that the school exists and I have every hope that all parents of these communities will appreciate the advantages which it provides, and that all who can see their way to do so will do their utmost to give their children the benefit of an education here. There can be no comparison between the conditions in Bombay, and I might almost say in any other part of the Presidency, and the conditions here. The climate is, I believe, delightful throughout the greater part of the year, the heat is never oppressive, and the pupils have all the advantages which fresh air, good food, and ample opportunities for exercise provide. I wish particularly to invite the attention of those who are not too well-off to the value of the school and leaving scholarships; all parents should be proud that their boys or girls are being educated at a reduced cost on account of their ability, rather than by obtaining remissions of fees on account of poverty, and I hope that the parents will encourage the children to compete for these scholarships, and remember that a good education for his children is one of the best investments a parent can make.

Both Lady Wilson and I would like to be associated with your work in the school, and I am asking the Headmaster to accept from us prizes to be awarded for General Knowledge, one for the girls from Lady Wilson, and one for the boys from myself.

I fully endorse everything that Mr. Spence has said about those who have taken part in this great enterprise. I had the pleasure last year of seeing the school in a very different state of completion than that which presents itself to-day. Then I met many of those whom you, Mr. Spence, have mentioned in your speech, and I already know of the zealous work of the Architect, Mr. Claude Batley, and of Mr. Gillett; the generosity of Messrs. Mackenzie, Ltd.; the enthusiasm of Mr. Hodgson; and the great assistance of Major Richardson. Of the Reverend Ashley Brown I shall have something to say on a future occasion, but, in addition to the great help he has given already, he is one of the sponsors of a scheme under which it will be possible to provide a Masonic Scholarship for the school, and I am sure you will all think it only right and proper that that Scholarship will be named after the

best friend the school has got, Mr. R. A. Spence. I must also refer to the invaluable work done by Mr. Haig Brown, whose thoughts, I am sure, are with us here to-day, and I am going to send him the following telegram as soon as the ceremony is over :

"Congratulations from self and all present at to-day's opening ceremony of Barnes Schools on successful conclusion your work for amalgamation of Bombay Education Society and Indo-British Association and establishment these magnificent schools at Deolali."

There are two more names I must mention, Mr. Evans, the Headmaster, and Miss Burn, the Headmistress. I do sincerely congratulate them on the manner in which they have put their shoulders to the wheel to carry this move through—undoubtedly a very difficult task, and carried through with great ability.

At the conclusion of Sir Leslie Wilson's speech, Mr. Spence read a letter received from Sir George Lloyd, the former Governor of Bombay, who laid the foundation stone of the schools. In the course of this he said, "Will you be so good as to express to all concerned my warmest congratulations at the splendid progress that has been made towards the completion of the buildings and to convey my most sincere good wishes for the future of the school in its new quarters. I know well the many difficulties which your Society has had to overcome before the present results could have been attained, and I am confident that the inauguration of the school in its new home is of real importance to education in the Bombay Presidency."

Three rousing cheers for the Governor and Lady Wilson by the students present ended the proceedings and the Governor was then shown round the buildings. When he left in his car to join the special train, the boys of the school lined the main road as far as the entrance gateway with lighted torches. In the evening, before leaving for Bombay, the Governor dined with Col. Whitaker. —[From the Times of India, January 30 1925.]

## INSPECTOR'S REPORT ON BARNES BOYS' HIGH SCHOOL.

The buildings and accommodation (ventilation, lighting, sanitary conditions, etc.) are excellent and the furniture and equipment throughout staff quarters, class rooms and library are very good.

The school has been working for roughly one year. Speaking as one who saw the building before it was completed, who was present at the opening ceremony and who now sees it after a year's work, I consider that the work done and the success achieved in that short time are admirable and reflect the greatest credit on Mr. Evans and his helpers.

As regards school work in particular, the school began with a nucleus of boys from the Bombay Education Society School, Byculla, to which were added boys from all sorts and conditions of schools. These had to be welded together and made into one. This process is obviously going on effectively, some classes remain a somewhat 'mixed composition' but a surprising settling-down has been achieved in the short time.

I am satisfied with the staff and its work. The members strike me as being efficient workers and loyal helpers of the Headmaster.

Work is satisfactory throughout and I have only one minor suggestion to make—viz., that the writing of the school be as far as possible standardised. Moral training and discipline are well looked after.

School accounts, records and registers are fairly kept and written up to date. Promotions have been judiciously made and rules governing admission of new scholars have been properly observed.

The school forms a world of its own and the working of this world is absorbingly interesting. It consists of a number of Houses. Each House is in charge of a House-master and is, as far as possible, a self-contained unit. The school maintains early hours all the

year and as a rule each pupil is free after 2 or 3 p.m. This leaves time for rest, games and preparation.

The games are organised and supervised in an ordered and efficient manner.

The school runs its own power-house. This is under an expert engineer and supplies the school with water and with electricity. To obviate any possibility of water shortage a well is being sunk which already promises a good addition to the school supply.

Mr. Evans allows nothing to run to waste. From surplus and waste water a school garden is supplied and is already producing an ample supply of good wholesome vegetables for the school. In addition it is obvious what this is saving the school in daily expense. In due course other similar ventures will appear—all to the greater efficiency and comfort and benefit of the school educationally and economically.

The amount of constructive work which has been done and is being done now is enormous and is a tribute to Mr. Evans and those who have backed him up.

The school is a brave venture and deserves all success.

I would sound one note of warning. I trust that the Managers in their desire to help the Anglo-Indian and Domiciled European Community will not overweight the school with free and half-free pupils. The idea and ideal are admirable, but in sober fact too many such pupils will seriously cripple the school's power to grow.

Average cost per pupil to Government Rs. 51.

W. GRIEVE,  
*Acting Inspector of European Schools.*

## INSPECTOR'S REPORT ON BARNES GIRLS' HIGH SCHOOL.

The remarks made in the Inspection Report of the Boys' High School apply with equal force and appositeness to the Girls' School. The buildings, furniture and accommodation are excellent. The staff is a strong, well balanced one and should do well under the guidance of the new mistress, Miss Hardy.

Promotions have been judiciously made and registers and accounts are fairly kept and written up to date. In three or four cases the rule regarding a Vernacular Certificate being obtained has not been observed, but steps are being taken to rectify this.

The Domestic Science class gives a thoroughly useful and up-to-date training in all matters pertaining to efficient house management and kindred activities. I am glad to see it so enthusiastically supported. In this connection I may add that the school is indeed fortunate to have the aid of such ladies as Sister Mary and Sister Margaret to look after its internal economy.

The Commercial Class also I regard as a thoroughly good venture. In these days when the girls leave school equipped for practically nothing, it is good to find a school which gives its pupils three definite and clear courses to choose from:—Literary, Domestic and Commercial, each of which leaves the pupil definitely qualified for some useful activity in life.

I trust that parents will realise the chances offered to their girls and avoid the fatal blunder of withdrawing their children before *finishing* at least one of the above courses.

The school work is satisfactory all round and the spirit of the school very attractive.

Average cost to Government per pupil, Rs. 44.

W. GRIEVE,  
*Acting Inspector of European Schools.*

## B. E. S. SCHOOLS, BYCULLA.

*Extracts from the Report of the Inspector of European  
Schools, 1925.*

The staff is adequate and qualified. The curriculum is on modern lines. The school is technically a new one but is really the coalesced remnants of the two schools which have migrated to Deolali. In spite of this its numbers are very satisfactory and are, I believe, increasing.

The Kindergarten Dept. is run on up-to-date lines—music, games, handwork are all made use of.

The Junior School is moderate. The staff are fairly good and this applies to the various routine subjects. The Middle and Higher sections are rather better and show on the whole satisfactory work.

W. GRIEVE,

*Acting Inspector of European Schools*

## LIST OF PRIZE WINNERS, 1925.

### Barnes School, Deolali.

#### BOYS' SCHOOL.

##### *Standard II.*

General Proficiency ..	First Prize ..	Hyacinth Maddocks.
	Second Prize ..	Enid Brown. (Certificate of Merit.)

**SCHOLARSHIPS, BEQUESTS, &c.****TURNER SCHOLARSHIP.**

This Scholarship was founded in the year 1847 by the brother officers of Captain Thomas M. Blois Turner of the Bombay Corps of Engineers, who, in order to testify their regard for his memory, resolved that they could do so in no better way than by instituting some useful memorial of him in connection with the Bombay Education Society, in which he took a warm interest and of which he was a most active and useful member.

The amount subscribed for the purpose was Rs. 2,740.

**BARNES' SCHOLARSHIP.**

This Scholarship was founded by the friends of the late Venerable Archdeacon Barnes (the founder of the Society) who subscribed the sum of Rs. 6,000 on his departure from India to commemorate the distinguished part which he took in founding the Society in 1815.

**MANSON TESTIMONIAL FUND.**

The friends of the late Charles J. Manson, Esq., C.S. (killed during the Mutiny), subscribed a sum of Rs. 3,710-2-7 to form a fund for the education and maintenance of one or more boys or girls in the Society's schools.

The following are the rules governing the above Scholarships:—

1. (a) *The Turner Scholarship* shall be of the value of Rupees thirty per month.
- (b) The Scholarship shall be tenable for not more than three years.
- (c) The Scholarship shall be open to any boy, under the age of fifteen on January 1st of the year in which the scholarship is awarded, who is either in or eligible for the school under the Society's rules.

- (d) The scholar shall be nominated by the Committee from a list of candidates who have previously passed an examination held for the purpose.
2. (a) There shall be three *Barnes' Scholarships*, two for girls and one for boys, and each Scholarship shall be of the value of Rupees twenty per month.

The remaining conditions shall be those stated in (b), (c) and (d) of the Turner Scholarship rules.

3. (a) *The Manson Scholarship* shall be of the value of Rupees ten per month.
- (b) The Scholarship shall be open to any boy or girl under the age of eleven on January 1st of the year in which it is awarded, who is either in or eligible for the Society's schools.

The other conditions are those stated in the Turner Scholarship.

#### WILLIAM AND MARY CORKE SCHOOL LEAVING SCHOLARSHIP.

- I. The Scholarship shall be called the William and Mary Corke School-leaving Scholarship, and shall be open to all European and Anglo-Indian boarders and day scholars who have attended the B. E. S. School for three years and are leaving to start work or to continue their studies at a University or at any approved Technical School or College.
- II. It shall be in the gift of the Managing Committee of the Bombay Education Society.
- III. Those boys shall be eligible regarding whom the Managing Committee are satisfied that—
- (i) they are sober, of industrious habits, and of good moral character ;
- (ii) the work they propose taking up offers them a good and suitable career ;

- (iii) they would be unable for lack of funds to take up the career selected without the assistance of the Scholarship.
- IV. The Scholarship shall be withdrawn either entirely or in part after one month's notice is given by the Managing Committee if any of the conditions of III (i), (ii) and (iii) cease to be fulfilled.
- V. The holder of the Scholarship shall furnish the Committee with a report from his Employer or Principal quarterly, failing which the Scholarship shall be forfeited.
- VI. The Scholarship shall be ordinarily of the value of Rs. 20 to 25 per month, and shall be awarded for one, two, three, or four years, according to the discretion of the Managing Committee, who in making the award shall state the number of years for which it is given.
- VII. Application for the Scholarship, in which he states what he proposes doing, shall be made by the boy himself to the Honorary Secretary by October 31st.
- VIII. The scholarship shall be awarded on the boys' school report, and not on the result of examination.

The first scholarship was awarded in 1918.

#### HODGE SCHOLARSHIPS.

The rules governing these, which are given to commemorate the work done by the Revd. R. C. V. Hodge, when Honorary Secretary in 1914, 1915, are the same as those for the "Corke" Scholarship save that the number and value of the Scholarships are entirely at the discretion of the Managing Committee.

#### CHOIR SCHOLARSHIPS.

The Chaplain and Trustees of Christ Church, Byculla, undertake to award seven Choir Scholarships, tenable in the Bombay Education Society's Schools, at Byculla.

The following are the rules governing the Choir Scholarships:—

- (a) The scholarships are tenable for one year only, but holders may compete again the following year if they wish to do so. The Chaplain may grant the renewal of one or more scholarships without examination, but as a general rule the seven scholarships will be open for competition annually.
- (b) A Scholarship may be withdrawn at the direction of the Chaplain if the holder is unsatisfactory in regard to attendance or conduct at services and choir practices, or is unfavourably reported on by the Managers in regard to conduct in school. Scholarship-holders must sit in the choir, and must attend during the holidays unless under special circumstances the Chaplain gives them permission to absent themselves.

\* \* \* \* \*

Application for permission to compete for both the Choir and the Society's Scholarships must be made in writing to the Honorary Secretary of the Society on or before December 31st.

The Scholarship examinations will be held during the first week after the re-opening of the schools in January. Separate examination papers will be set for boys and girls in the Turner and Barnes' Scholarships, but the same papers will be set for both in the Manson. The standard of examination for the Turner and Barnes' Scholarships will be that of Standard VII of European High Schools and for the Manson that of Standard IV. Candidates for Choir Scholarships will have to undergo a simple voice test to prove whether they have a voice that can be trained and used to advantage in the Choir. All applications must be sent in on a form which can be obtained from the Honorary Secretary. No scholar will be allowed to hold a scholarship of value greater than school fees.

#### OGILVIE PRIZE.

The Committee of the "OGILVIE TESTIMONIAL FUND" handed to the Society Rs.800 in May 1852 for forming two Annual Prizes,

in Money or Books, to be given to the best conducted boy and girl in the schools.

#### BURNES' MEDAL.

A Silver Medal, founded by the Masonic Brethren of Bombay in memory of the late Dr. Jacob Burnes, to reward merit in the Byculla schools. It is awarded alternately in each school.

#### ELEANOR BOYD'S CHARITY.

The above named lady left by her will, dated 28th January 1767, the residue of her estate for the benefit of Protestant orphan children of the town and island of Bombay. By an order of the High Court of Judicature in 1846, Rs. 29,000 in Sicca 4 per cent. Government Promissory Notes and Rs. 4,210-7-0 in cash were made over to the Society in trust, the interest accruing to be spent on education and maintenance of Protestant children born in the Presidency of Bombay.

#### WILLOCK ORPHAN ENDOWMENT.

The brother-officers of the late Major Willock of the Honourable Company's Artillery handed to the Society in 1847 the sum of Rs.1,162-1-0 to form an endowment, to be called the "WILLOCK ORPHAN ENDOWMENT."

#### GREEN'S SCHOLARSHIP (INDO-BRITISH).

The Scholarship was founded in the year 1863, with money raised by subscriptions, to perpetuate the memory of the late Revd. Charles Green who held the office of Incumbent Trinity Chapel, Sonapur, and Superintendent of the Indo-British Institution, from October 1860 to August 1861. The amount subscribed for the purpose was Rs. 4,255 and in execution of a wish often expressed by the deceased, that some means should be found of ensuring a provision of a more permanent nature than donations and monthly subscriptions for the support of children admitted in the said

Institution "it was determined to maintain, clothe, and educate in the Indo-British Institution one or more children, to be designed Green's Scholars." The First Trustees of the fund, under the deed, were the Right Revd. John Hording, D.D., Lord Bishop of Bombay, Captain (afterwards General) W. T. Chitty and F. D. Faithful, Esq., with power to fill up vacancies in their number and to appoint their successors. The Trust-deed provides that—

- (1) the income of the Trust Fund shall be applied as far as it will extend, in lodging, feeding, clothing and educating one or more children in the Institution ;
- (2) children of either sex, the offspring of parents of European and Indian birth or descent, commonly called Indo-British children, shall alone be entitled to enjoy the benefits arising from the application of the income of the said Trust Fund ;
- (3) such children shall be designed "Green's Scholars" and in the choice or selection of them the most needy or destitute of such children shall when practicable be preferred ;
- (4) the children shall, from time to time be selected by the Committee of the Indo-British Institution or if there should not be such a body, by the Superintendent, Principal, Secretary, or Manager of the Institution ;
- (5) the Trustees shall, from time to time, make over to the governing body or officer of the Institution, the income from the Trust Fund, to be applied in the manner before explained.

#### INDIAN NAVY PRIZE FUND (INDO-BRITISH).

At the end of 1864 a sum of money (now amounting to Rs. 1,250-1-4) was invested in the name of the Institution by Commander G. W. Robinson, Vice-President of the late Indian Navy Club, for the formation of two "Indian Navy Club Prizes" on the undermentioned condition :—

'That the interest be divided into two equal prizes ; to be called the Indian Navy Club Prizes, and to be given every

Christmas to the girl and boy, *orphans*, and on the foundation who shall best merit them for intelligence and good conduct during the past year. It was further stipulated that no scholar was to win the prize oftener than twice, and after that the next best was to have it.'

Commander Robinson's letter proceeds :—

"The prizes are to be held in trust by the Superintendent of the Institution and to be paid to the children on their leaving the school or disposed of for them as the Committee may deem best."

It further explains :—

'The Indian Navy Club Prizes are intended for the *destitute* orphans, who from time to time, may find an asylum in the school and not for those children who have parents or friends who can pay for their schooling, and provide for them on their leaving the Institution. If, however, it should so happen that the destitute orphans of either sex fail (in number or qualification), then the prize is to be given in the school to the most deserving of the paying scholars, so that one prize will always remain in each school for competition.'

The letter concludes :—

"By the term *destitute orphans* is meant those children who are wholly supported by the Institution and whose friends cannot help them to start in life ; in fact, the poorest of the *poor* among the children."

See Commander G. W. Robinson's letter, dated 16th September, 1864.

#### BLANEY SCHOLARSHIP (INDO-BRITISH).

This Scholarship was founded from the money handed over to the Committee of the Indo-British Institution by Dr. Blaney and his fellow-workers when closing their school for destitute and neglected children at Byculla. The fund amounting to Rs. 2,500 was handed over to the Institution in 1893, the annual interest of which, less Rs. 12, is credited to the General Fund on account of the "Blaney Scholar."

(1) The terms, *see para. 2* of the Scholarship, are—(a) That the interest of the Fund paid into the General Fund shall be applied to the education of an Eurasian boy who is under ten years of age at the time he obtains the Scholarship and whose father is dead. (b) That the Scholarship shall be known as "Dr. Blaney's Scholarship" and shall be open to any boy subject to the above conditions whether he be in the school, or whether application has been made for his admission as candidate for the Scholarship, and shall be held by him while he remains in the school. (c) That an examination shall be held under the direction of the Head Master whenever a vacancy occurs, and the Managing Committee shall decide who is the successful candidate, and (d) That the holder of the Scholarship shall not be liable to pay more than the difference between the income of the Fund and the fee which would otherwise be charged.

(2) Rupees 12 out of the annual interest, being Re. 1 per month, are paid into the post office Savings Bank each year, and on the Blaney Scholar leaving the school the amount of this monthly allowance, together with any interest that may have accrued, is handed over to him.

#### G. I. P. RAILWAY ENDOWMENT FUND.

The following investments, representing sums of money received from time to time from the Agent, G. I. P. Rly., are held on trust to secure the free education and maintenance in the Barnes' School of 17 scholars. The nomination of scholars rests with the Agent of the Company subject to the approval of the Managing Committee.

	Annual interest.
	Rs. a.
On Old B. E. S. Account Rs. 38,000. 4 per cent. Bom- bay Port Trust Bonds .. .. .	1,516 4
Do. Rs. 6,000. 6½ per cent. Deve- lopment Loan .. .. .	389 0
On Old I. B. I. Account Rs. 22,300. 3½ per cent. Govt. Paper .. .. .	777 14
Do. Rs. 8,000, 4 per cent. Municipal Bonds .. .. .	318 12
Rs. .. .. .	3,001 14

The G. I. P. have been making a further grant of Rs. 2,630 per annum, making the total receipts for this Fund Rs. 5,631-14-0.

In 1925, after allowing for Government Grants for maintenance and Education and receipts for board and lodging from the Staff, and also omitting all provision for interest on Capital expenditure and depreciation on plants and buildings, the *net* cost of educating, clothing and maintaining a child on the Barnes' School averaged Rs. 660 per head. The cost of the 17 children to the Society was therefore Rs. 11,020 as against Rs. 5,631-14-0. The Society is therefore helped in its work as regards these children to the extent of roughly a moiety of the cost.

#### WINIFRED GIFT FUND (INDO-BRITISH).

The Governor in the Educational Department having in 1889 accepted charge of an endowment of Rs. 1,000 by Surgeon-Major G. Waters in memory of his wife, the following regulations were with the concurrence of the founder laid down for its administration:—

1. The endowment to be called the "Winifred Gift."
2. The Honorary Secretary of the Indo-British Institution for the time being to be the administrator.
3. Out of the interest accruing from the Fund, Rs. 10 nett are to be paid annually to the Chairman of the Bombay Christian Burial Board for the proper maintenance of the grave and tomb of the founder's wife in Sewri Cemetery.
4. The residue of the annual interest shall each year be placed at the disposal of the Ladies' Committee of the Indo-British Institution Girls' School for distribution of prizes of extra clothing or material for clothing, or money of such numbers and value, and for proficiency in plain needle work, or such other subject as the Committee by resolution may from time to time determine.

## B. B. &amp; C. I. RAILWAY ENDOWMENT FUND.

The following investments representing sums of money received from time to time from the Agent, B. B. & C. I. Railway, are held on trust to secure one free nomination and one nomination at Rs. 10 per mensem by the Agent of children of deceased employees of the Railway.

	Annual Interest. Rs. a.
On Old B. E. S. Account Rs. 7,500 4 per cent. Port Trust Bonds .. .. .	299 4
On Old I. B. I. Account Rs. 4,200 3½ per cent. Government Paper .. .. .	
On Old I. B. I. Account Rs. 100 3 per cent. Government Paper .. .. .	
On Old I. B. I. Account Rs. 1,500 4 per cent. Port Trust Bonds .. .. .	

## REHATSEK PRIZES (INDO-BRITISH).

The Executors of the Estate of the late Mr. E. Rehatsek pay from time to time a sum to be spent in money prizes to deserving pupils in the Elementary classes of the Institution. The amounts as they are received, with concurrence of the Executor of the Rehatsek Estate, are divided into sums of Rs. 25 and invested for the Scholars elected, who on leaving the Institution receive that sum with the interest accrued. Scholars leaving the School with insufficient reason in the opinion of the Committee shall forfeit their prize money.

## ROWLAND TRUST FUND (INDO-BRITISH).

On the 16th September 1910 two Port Trust Bonds of the face value of Rs. 500 each and Rs. 100 to be invested in a Government security were made over to the Institution by the Anglo-Indian Association of Western India from the Rowland Prizes Fund, of which the above Association were the Trustees, on the condition that the interest be spent for the promotion of education among the children of the Anglo-Indian and Eurasian Communities of Bombay.

## WILLIAM JAMES CORKE TRUST (INDO-BRITISH).

The sum of Rs. 5,000 was made over to the School on March 15th, 1917, by Mrs. M. A. C. Corke (of Ahmedabad) as an endowment to provide for the education and boarding of Orphan Children in the Indo-British Institution in memory of the late Mr. W. J. Corke.

According to the terms of the grant, the money is to be invested in Government Securities and the capital under all circumstances to remain untouched. The endowment is to be known as "The William James Corke Trust."

## C. M. WARD PRIZE FUND (INDO-BRITISH).

Mr. C. M. Ward made over to the School Rs. 300 in 5½ per cent. War Bonds on 16th September 1918, with the object of endowing two prizes to be given every year to the boy and girl who shall be adjudged best at Athletics.

## THE TODMAN TRUST (INDO-BRITISH).

A sum of Rupees one thousand in War Bonds was presented to the School by the late Mr. H. R. Todman on the 16th August 1918, the interest to be utilised for providing pocket money for scholars who are destitute of relations and friends.

## SCHOLARSHIPS AVAILABLE IN 1927.

Parents are reminded that the following Scholarships will be awarded, on work done in the school, to boys and girls leaving school at the end of 1926.

## SCHOOL LEAVING SCHOLARSHIPS.

The Lady Lloyd Scholarship of Rs. 50 per mensem tenable for two years.

The Haig-Brown Scholarship of Rs. 30 per mensem tenable for two years.

The Gill Scholarship of Rs. 20 per mensem tenable for two years.

The Corke Scholarship of Rs. 25 per mensem tenable at the discretion of the Committee of the B. E. S.

One or more Hodge Scholarships and varying in value according to circumstances of the case.

Parents who are contemplating the removal of their children at the end of their school career should communicate with the Head Master or Head Mistress to ascertain whether the career contemplated, their own financial circumstances and the reputation earned by their child during stay in School, warrant their being granted one of the above scholarships.

It is the aim of the Committee to increase the number of Scholarships so that in time every deserving boy and girl in the Barnes' School will be helped to continue their education after leaving school. Education does not end with school and the best positions in this world can only be attained by a long course of study and apprenticeship.

## SCHOLARSHIPS IN THE BARNES' SCHOOLS.

The following Scholarships tenable in the school during 1927 will be competed for at the end of 1926 :—

One *Manson* Scholarship available for either a boy or a girl.

One *Turner* Scholarship for a boy.

One *Barnes* Scholarship for a boy.

One *Barnes* Scholarship for a girl.

For conditions of these see preceding pages.

The Managing Committee have passed a resolution that all children who have studied not less than two years in the Society's Schools at Byculla and who are well reported on may be admitted—if eligible—to the Boarding Schools at Deolali at a reduction of Rs. 10 per mensem off the full fees.

## MASONIC SCHOLARSHIPS.

The Barnes Schools at Deolali may rightly be termed the Masonic Schools of the District of Bombay. The Bombay Masonic Association, which so far as English Masonry is concerned, looks after the education and maintenance of children of deceased masons who were in good standing but straitened circumstances, is at the present moment providing scholarships of Rs. 40 per mensem towards the education and maintenance of eight children at the Barnes' School, namely :—

Names.	Date of Admission.
Kerr, Colin .. .. .	7th April 1922.
„ Darrel .. .. .	7th April 1922.
„ Sheila Evelyn .. .. .	20th February 1923.
„ Nancy .. .. .	24th February 1923.
„ Lionel .. .. .	18th January 1926.
Lillywhite, Janet .. .. .	10th October 1925.
Glen Stuart, Colin .. .. .	5th April 1926.
Walton, George .. .. .	1st July 1926.

The Scottish Masonic Benevolent Association, which has to look after the education of its children all over India, provides scholarships of Rs. 20 and Rs. 30 respectively per mensem for the following children :—

Cockman, Joan .. .. .	Admitted June 17th, 1919.
Wilson, Richard .. .. .	„ March 13th, 1926.

To commemorate the part which W. A. Haig Brown, Sir Leslie Wilson's predecessor as District Grand Master E. C. Bombay, and Sir Reginald Spence, now the Deputy District Grand Master, took in moving the Boarding Schools from Byculla to Deolali, the following scholarships were founded for the maintenance, education and setting out in life of orphan children of Masons :—

Lodge "St. George" 549 E. C. .. .. .	The Haig Brown Scholarship of Rs. 500 per annum.
Lodge "Knight" 3918 E. C. Deolali .. .. .	The Reginald Spence Military Scholarship of Rs. 500 per annum.

The idea has caught on amongst Masons and to commemorate the name of William Henry Down, a former pupil and master in the School and a most keen worker on behalf of both boys in the schools and boys outside the school and whose premature death has been a very great loss to us, the "Research Lodge" No. 3184 E. C., has endowed the William Henry Down Scholarship of Rs. 500 per annum.

The Masons of Sind have followed suit and to commemorate Sir Leslie Wilson's first visit to them are endowing the "Cherry Orphan" Scholarship.

To show that outlying stations support us, we have heard, just as we go to press, that Lodge "Light in Arabia" 3870 E. C., Aden, has agreed to maintain a scholarship of Rs. 500 per annum.

All these scholarships will be at the Barnes' School and will be managed by the Bombay Masonic Association.

We hope the Association of the Schools with the charitable work of Freemasonry will bind masons to us and make them individual subscribers to our schools.

#### CHRIST CHURCH SCHOLARSHIP.

This Scholarship was begun by collections in Christ Church on the last Sunday before the Boarders went away to Deolali.

It was intended that an appeal should always be made in the future on Founder's Day for the benefit of this Scholarship Fund.

It was also intended that subscribers should be obtained.

It was meant to maintain or assist towards the maintenance of a boy or girl going to the Barnes' High School from Byculla, who had been in the Day School five years, the nomination to be by the Chaplain of Byculla.

	1925.	1926.
Christ Church Scholarship	Florence Lilly.	Florence Lilly.

#### BOMBAY EDUCATION SOCIETY EX-STUDENTS' ASSOCIATION.

<i>President</i>	.. .. .	Sir Reginald Spence, Kt.
<i>Vice President</i>	.. .. .	Rev. A. J. Seaman.
<i>Treasurer</i>	.. .. .	H. Royal, Esq.
<i>Honorary Secretary</i>	.. .. .	R. Glover-Wright, Esq., 1925.
"	" .. .. .	A. R. Marshall, Esq., 1926.

#### COMMITTEE FOR 1926.

<i>Honorary Secretary for Athletics</i>	.. .. .	J. Ellis, Esq.
" " " <i>Cricket</i>	.. .. .	P. Lilly, Esq.
" " " <i>Boxing</i>	.. .. .	R. B. Martin, Esq.
" " " <i>Hockey</i>	.. .. .	G. B. Mayers, Esq.
		G. Baker, Esq.
		J. Bearcroft, Esq.
		C. W. Bigwood, Esq.
		E. Fuller, Esq.
		R. Glover-Wright, Esq.
		G. Lymn, Esq.
		P. O'Halloran, Esq.

This Association consists of Members, Associate Members and Honorary Members. All past pupils of the Bombay Education Society's Schools and of the Indo-British Institution, past and present teachers, and past and present members of the Council of Directors are eligible for Membership.

The husbands of past pupils of the Girls' School, and the wives of past pupils of the Boys' school are entitled to become Associate members. The Committee has power to invite such persons as have shown a keen interest in the welfare of the pupils of the Schools and of the Association, if not eligible for membership, to become Honorary Members.

Resident Members pay a subscription of Rs. 3 per annum. Up-country members pay Rs. 2, Associate members pay Rs. 5 per annum. The *Annual Dinner* is held on Founder's Day, *i.e.*, 29th January or as near that date as possible. All those desiring further information should write either to Mr. H. Royal or to Mr. A. R. Marshall, care of B. E. S. Office, Chaplain's Bungalow, Byculla.

BOMBAY, 17<sup>th</sup> July 1926.

We have examined the above Balance Sheet with the Books and Vouchers and we have found it correct and in our opinion it is properly drawn up so as to exhibit a true and correct view of the Society's affairs as shown by the Books.

A. F. FERGUSON & Co.,

## SCHOOLS (Bombay and Deolali).
