I must take this opportunity of congratulating our **teachers** for **working wholeheartedly** with our children to achieve such **path-breaking results**. Without their efforts and **your support**, parents, I am sure we would not have been able to achieve these exceptional scores.

Thank you for reposing your faith in us and I am convinced that, as Educators, we will never let you down.

It is with a certain amount of anguish that I write, as far too many of you have taken the education that your wards are receiving for granted. Delivering quality education at the price point that we do, demonstrates our ability and sincerity to offer exceptional opportunity of education for the well-being and happiness of all children who come to us for education at Barnes School & Junior College, Devlali.

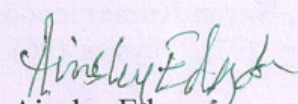

I am afraid the law of nature is very clear – if you don't have, you cannot get. Therefore, I would like to caution the parents who think their wards can continue to study at Barnes, without paying the fees. Either today or tomorrow, the payment will have to be made good.

High Courts, in **Chandigarh**, **Delhi**, **Mumbai**, plus the **Supreme Court**, have rejected any **curtailment** of the **collection of fees**. As a school, we have not raised any fees, but do expect the amount that is to be cleared, is paid at the earliest.

I look forward to your consideration in this regard because our teachers have worked without ceasing during the **110 days lockdown** period to keep your children engaged.

We are going to come out the other side of all this turbulence so much wiser, brave and awake. This I am sure of.

Sincerely,

Ainsley Edgar
